

BASKETBALL CONNECT

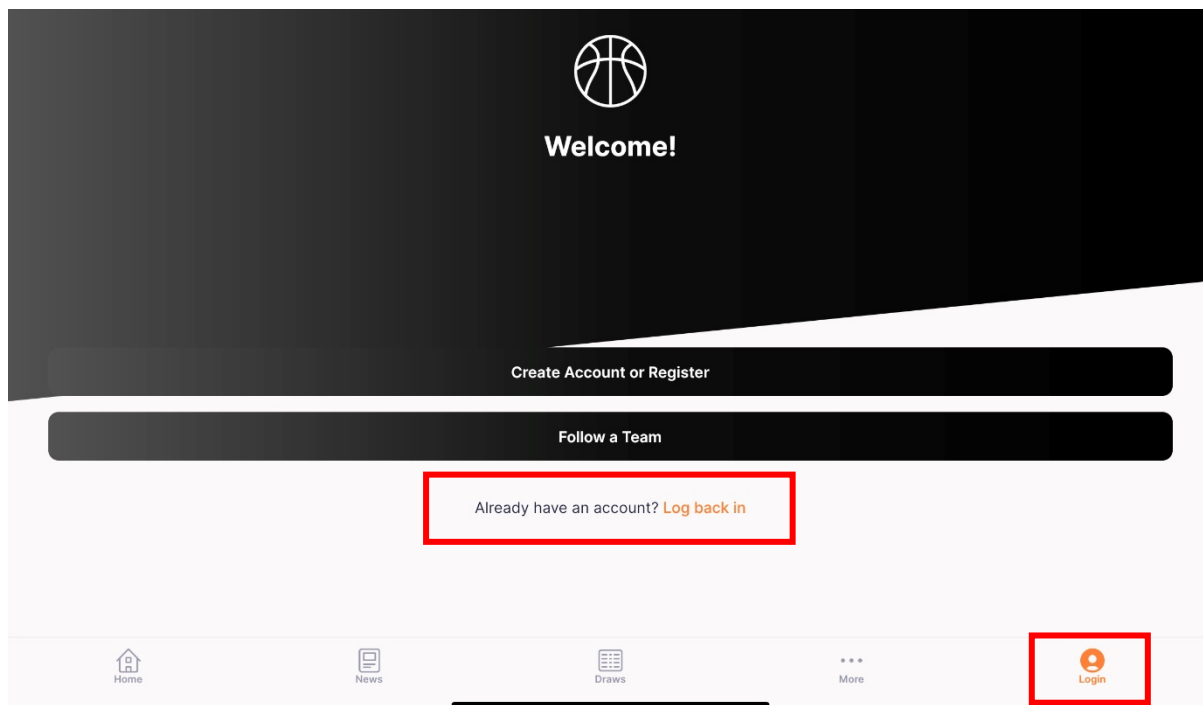

Scoring App Manual

Step 1 – Assigning a court on the iPad/Tablet

Download the Basketball Connect App on the App Store or Google Play on your iPad or scoring tablet.

Step 2

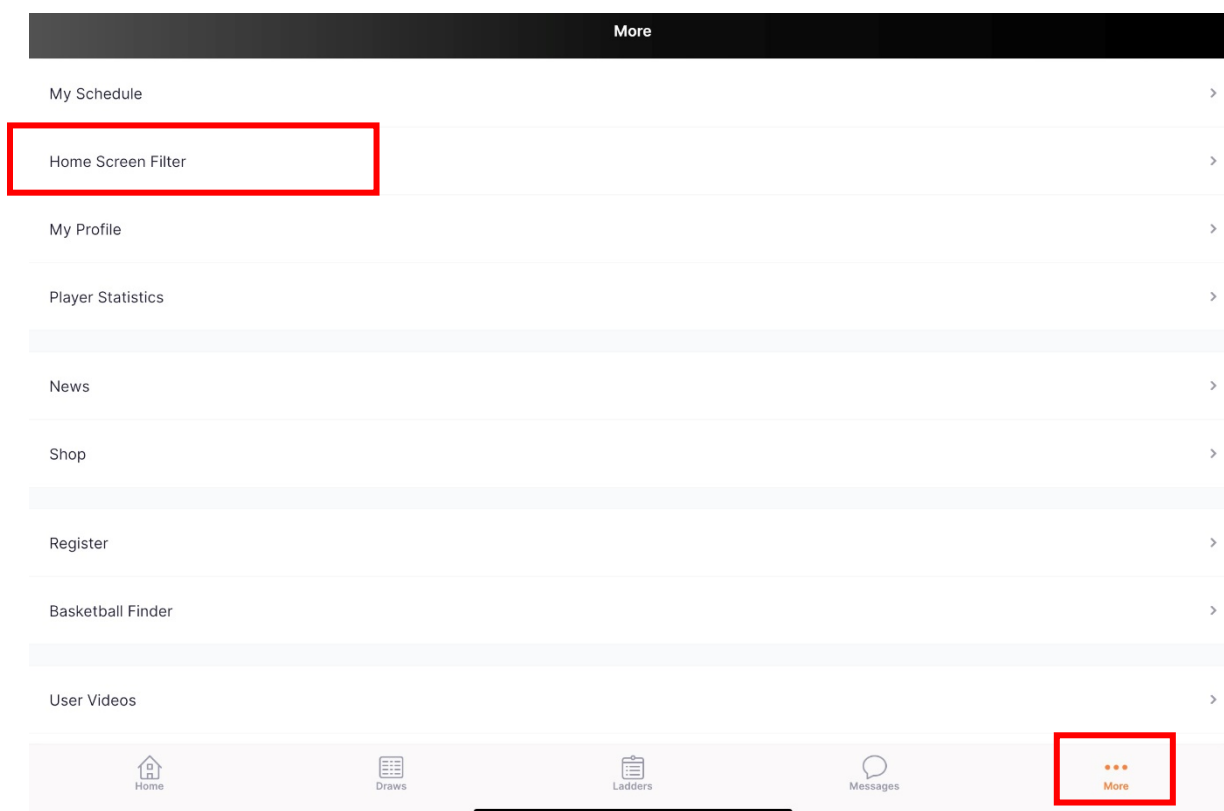

Log in to the App using your court to score details.

Step 2

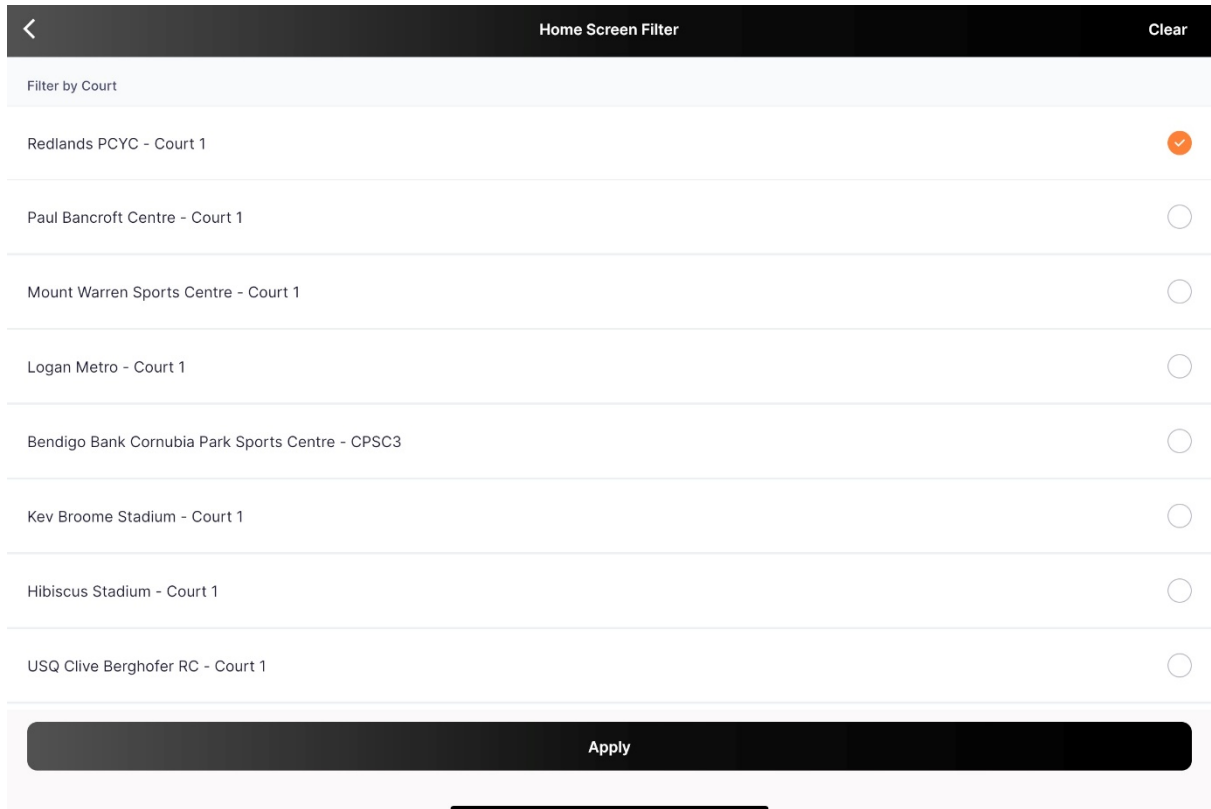

Filter your games by court.

Select More on the bottom right of the screen and locate Home Screen Filter

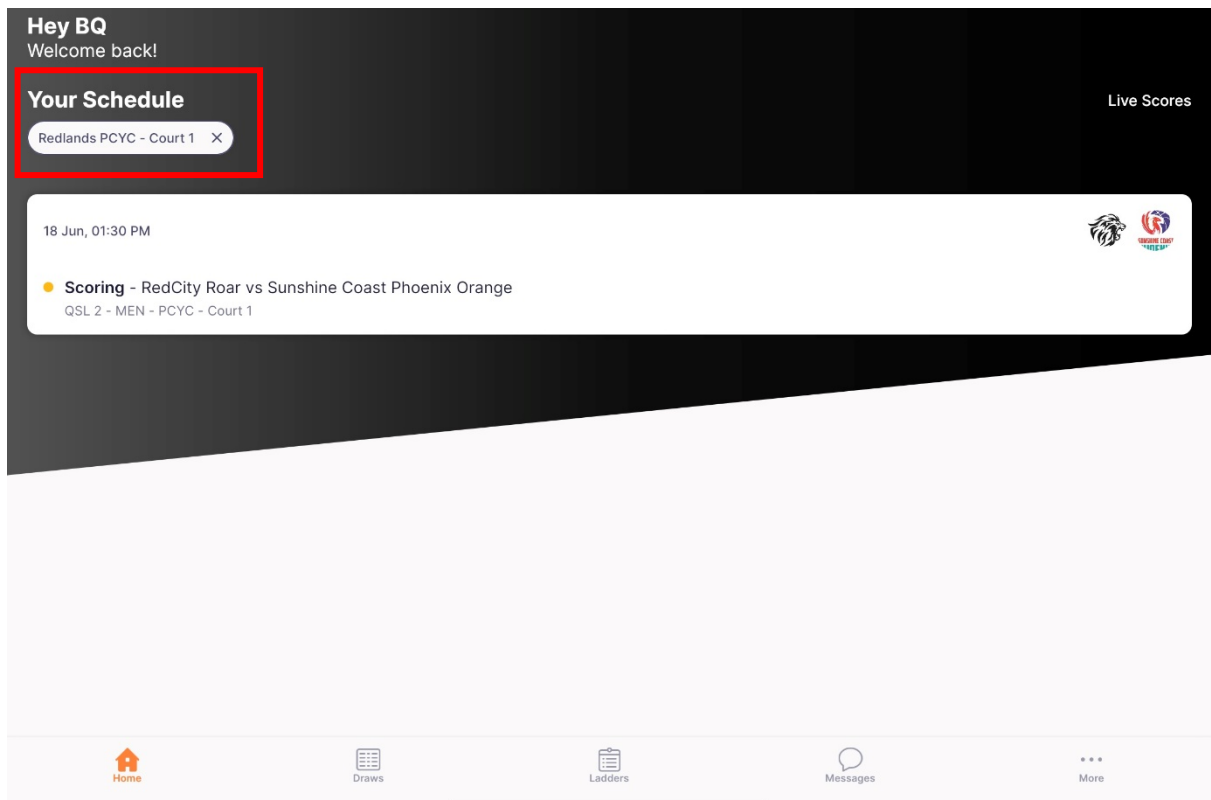

Step 3

Select the correct court and hit Apply.

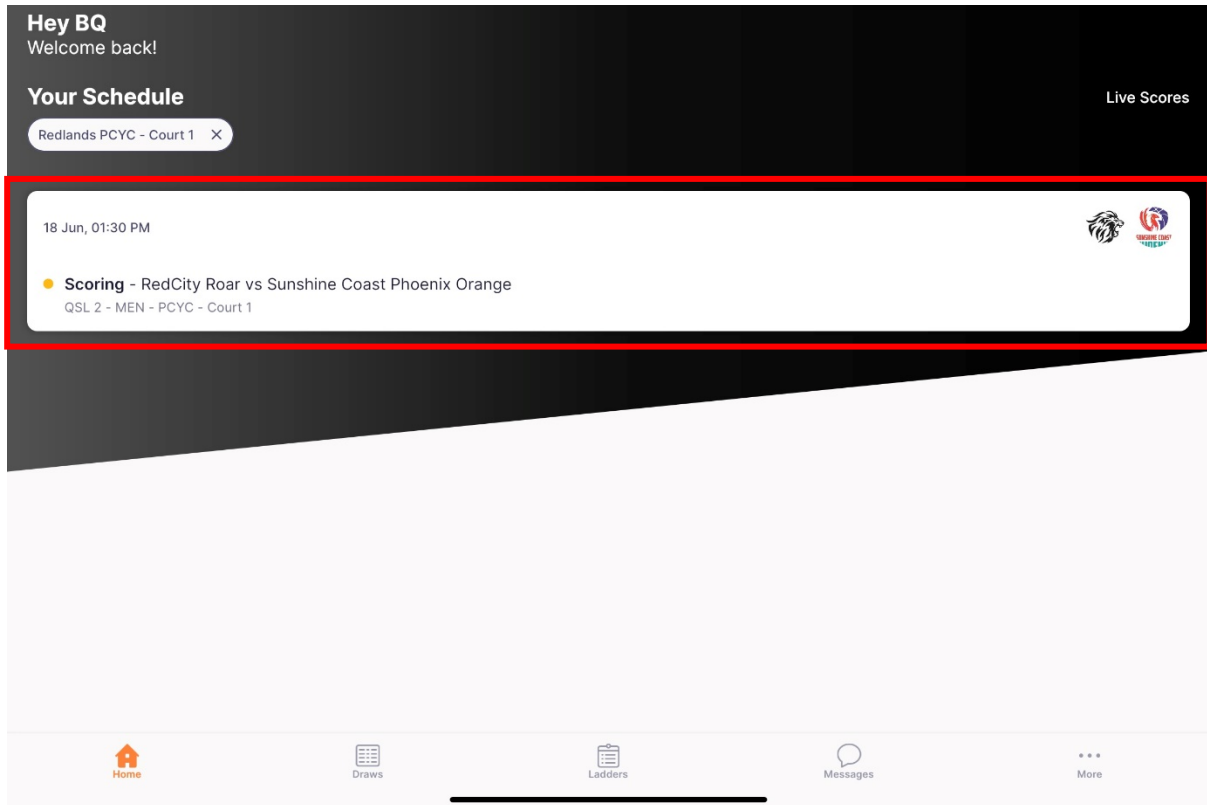

Now navigate to the Home icon at the bottom left-hand side of the screen. The App will now show games assigned to this court only.

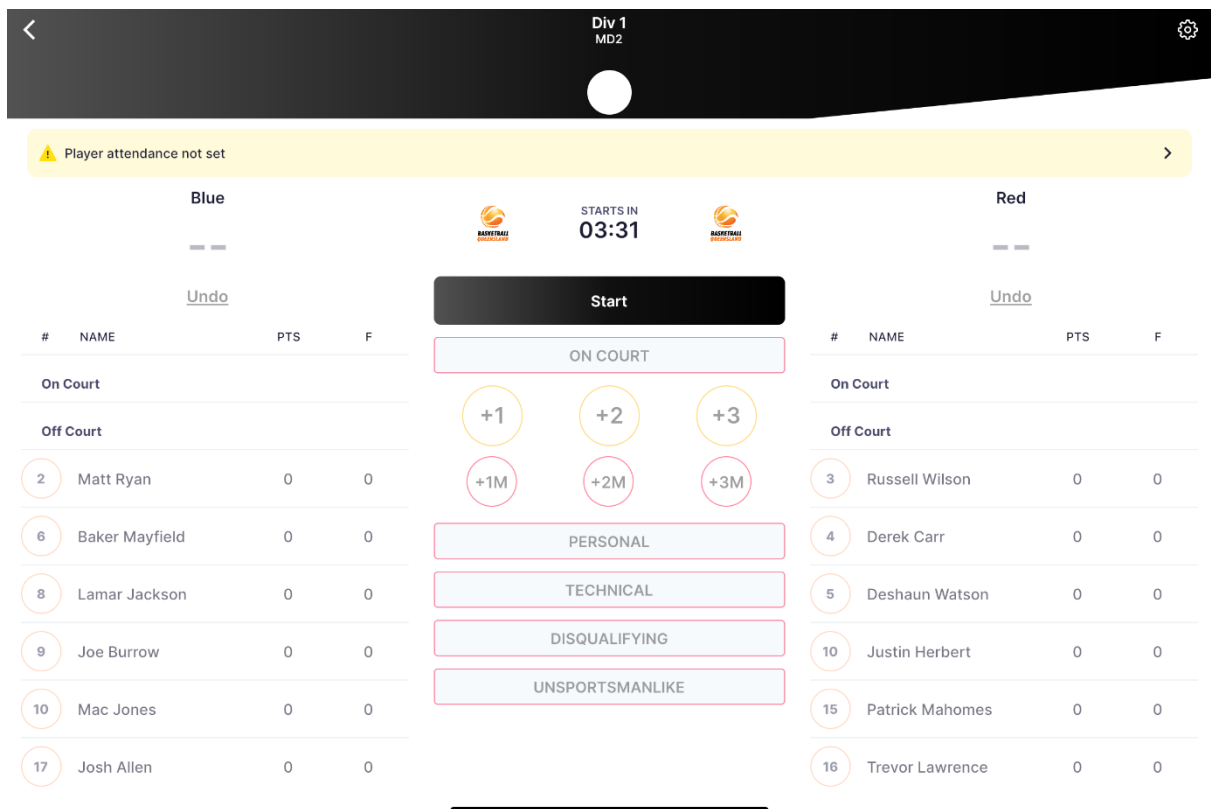

Step 4

To open a game to score, click on the game panel.

Step 5

Prior to the game you must set Player Attendance. Click on the top of the screen – yellow box.

Step 6

Select the tick box next to each player that is playing. If a player is missing a number a pop-up box will appear asking to insert scoring correct number. Confirm both teams and hit Done. **NOTE: This only needs to be done once per competition.**

16	Trevor Lawrence	0	0
Off Court			

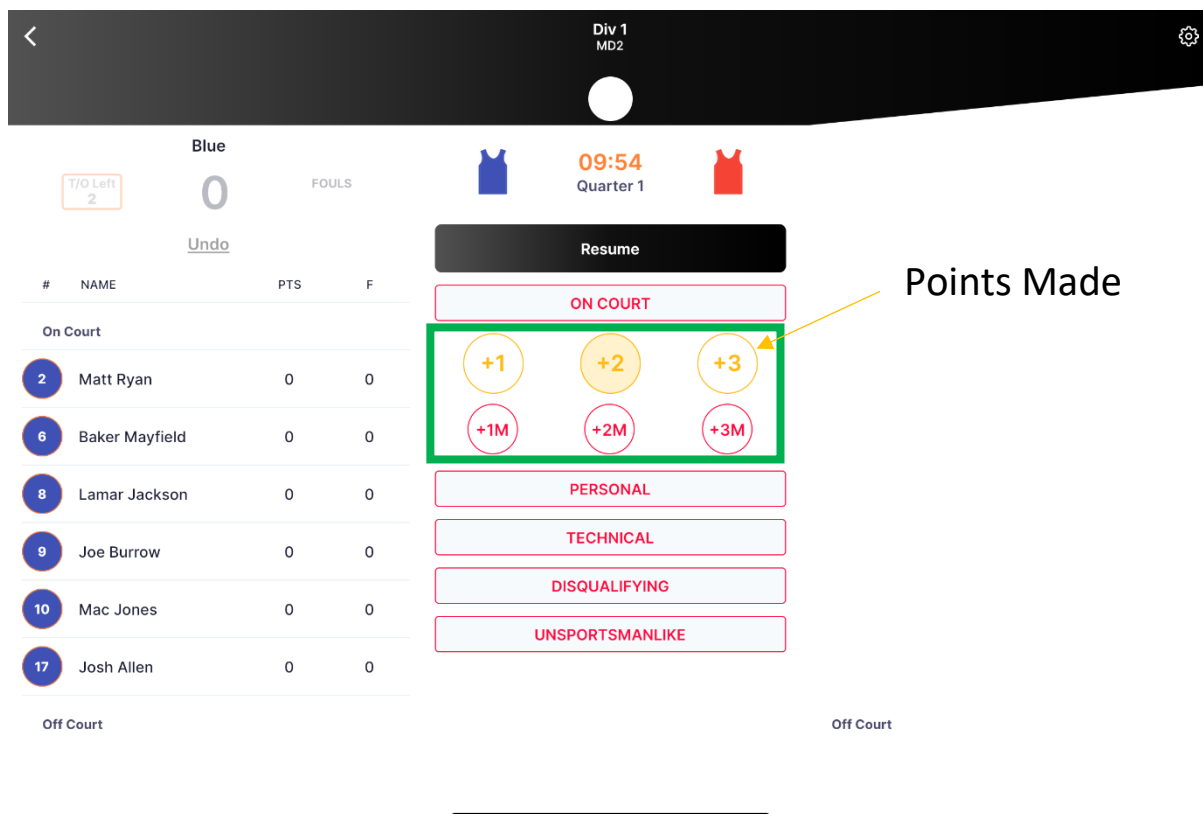

Step 8

Change jersey colour for both teams. Click on each team's logo to change their colour on the screen using the colour menu.

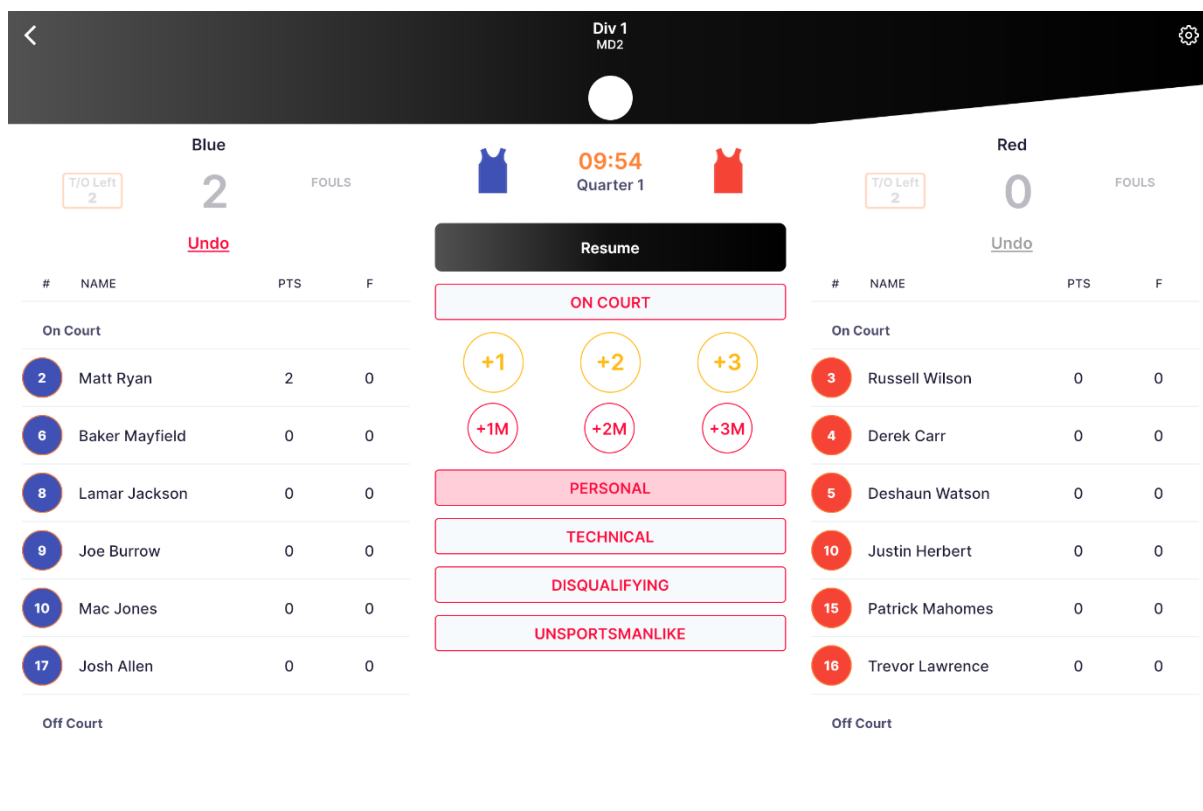

Step 9

Adding points to a player. Points made (in yellow) are to be selected FIRST before a player is selected. The writing will darken, and the player can then be selected.

Step 10

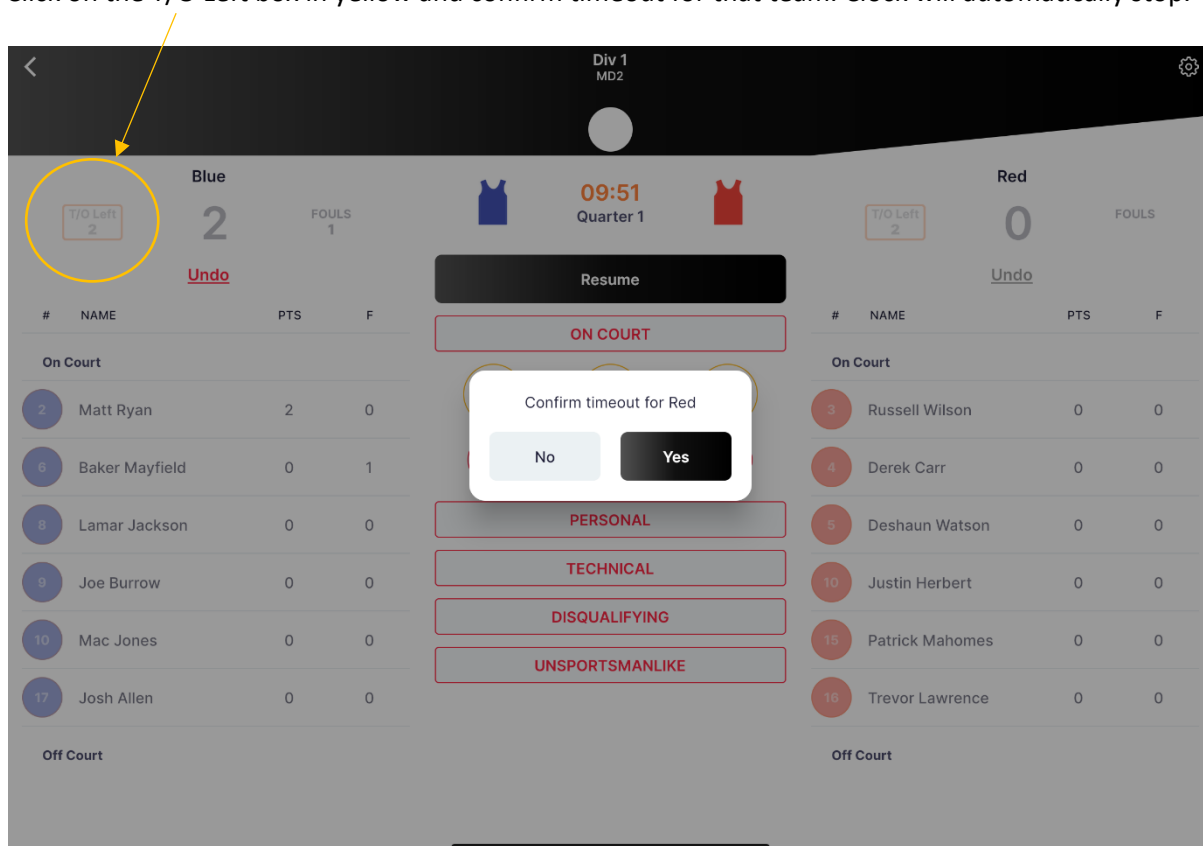

Adding fouls to a player. Fouls (either Personal, Technical, Disqualifying or Unsportsmanlike) are to be selected FIRST before a player is selected. The writing will darken, and the player can then be selected. Points and Fouls can be selected either when the clock is running or paused.

Step 11

Selecting a timeout for either team.

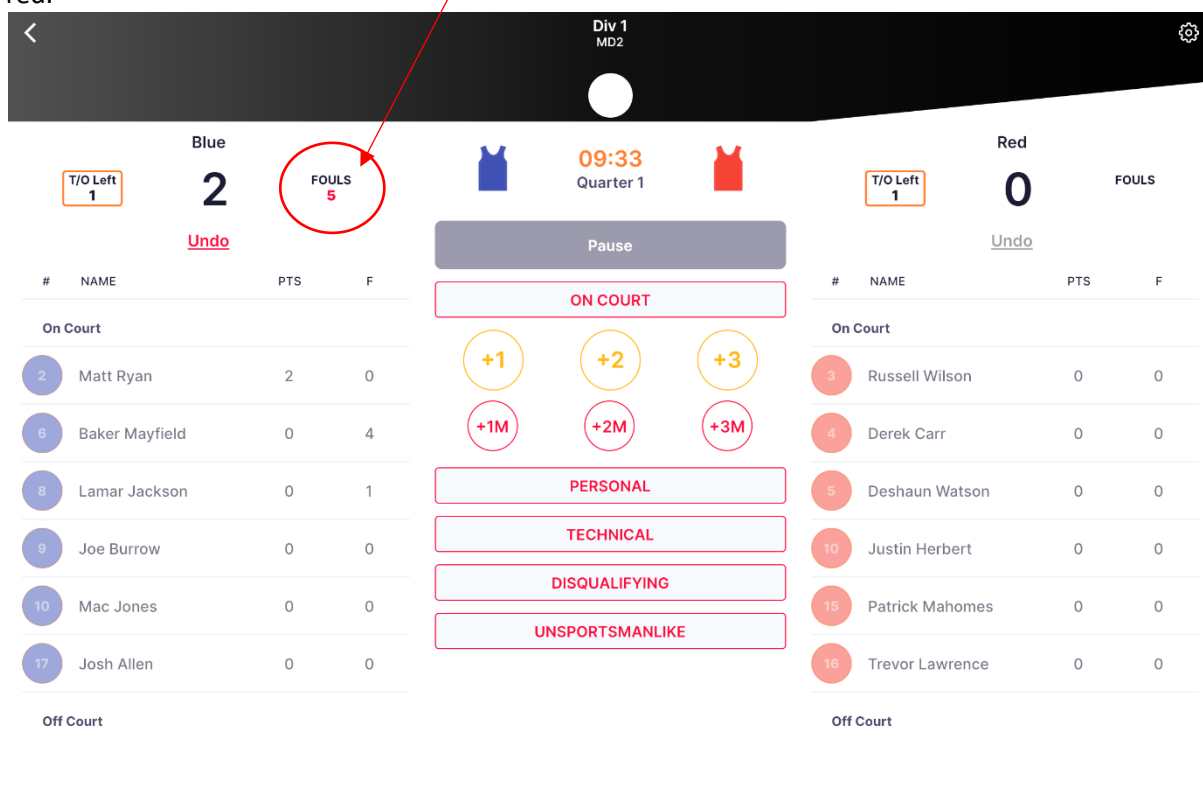

Click on the T/O Left box in yellow and confirm timeout for that team. Clock will automatically stop.

Step 12

Team reaches foul bonus threshold.

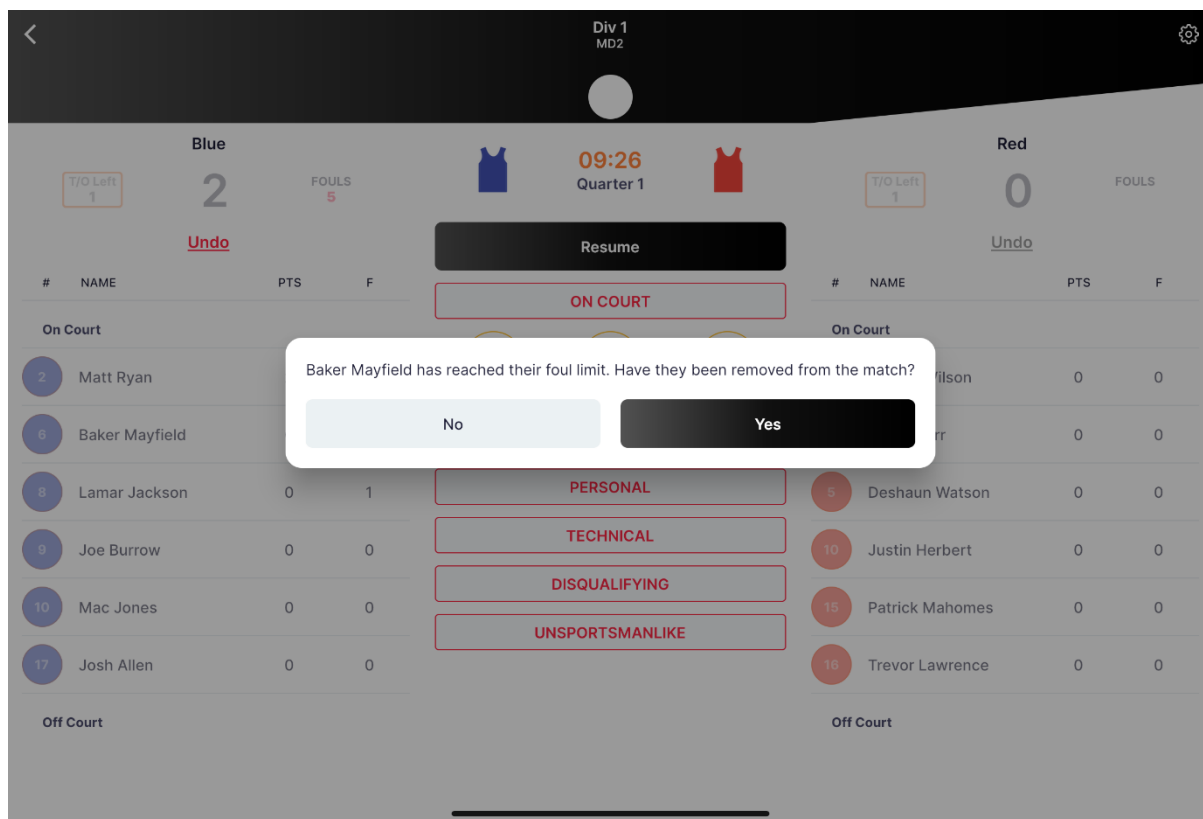

Once a team reaches their foul bonus threshold for the quarter the number of fouls will display in red.

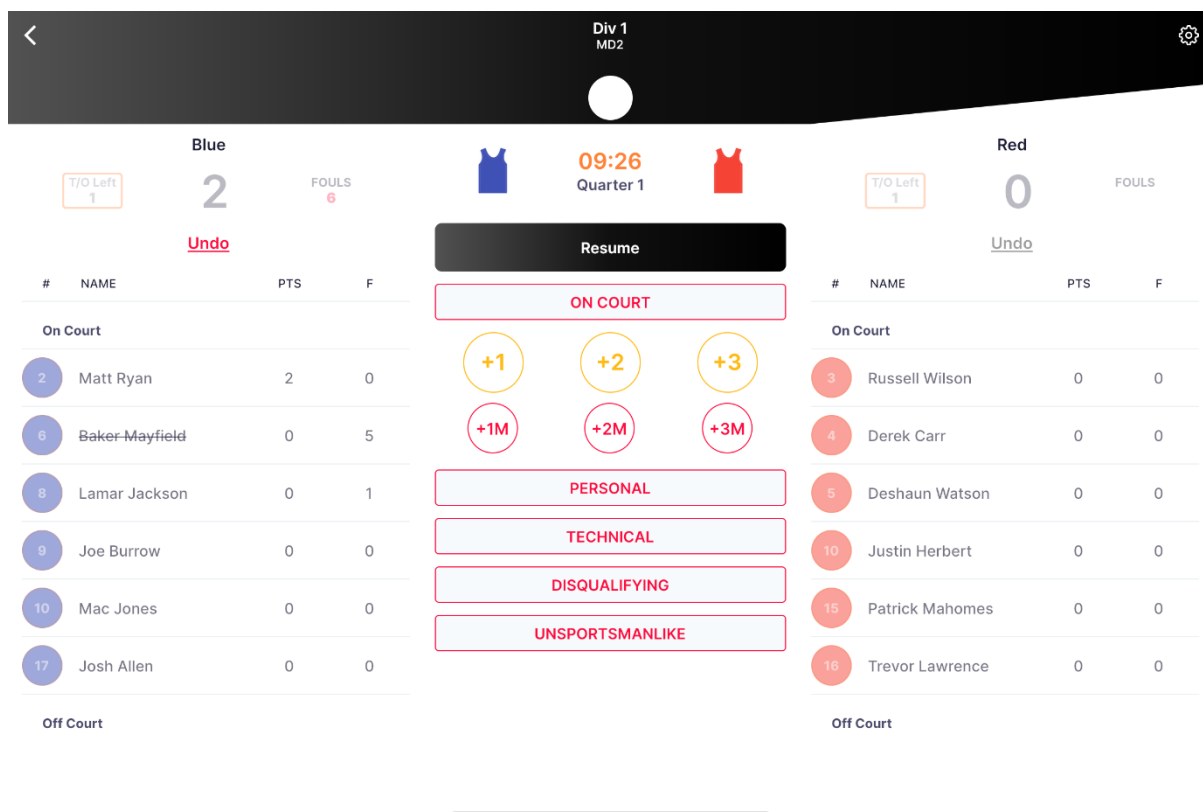

Step 13

Player reaches foul limit.

Once a player reaches their foul limit a pop-up box will appear asking to remove them from the game.

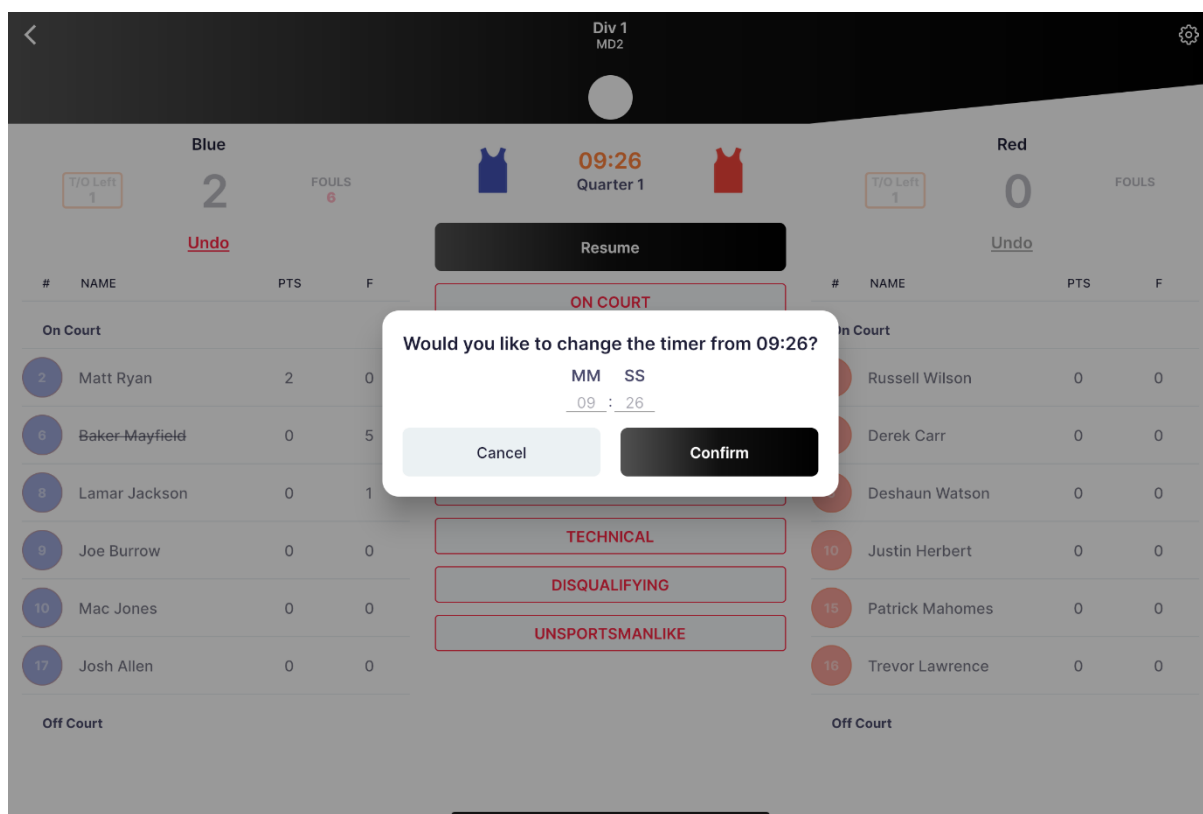

Once a player has been removed, they will be crossed off the list.

Step 14

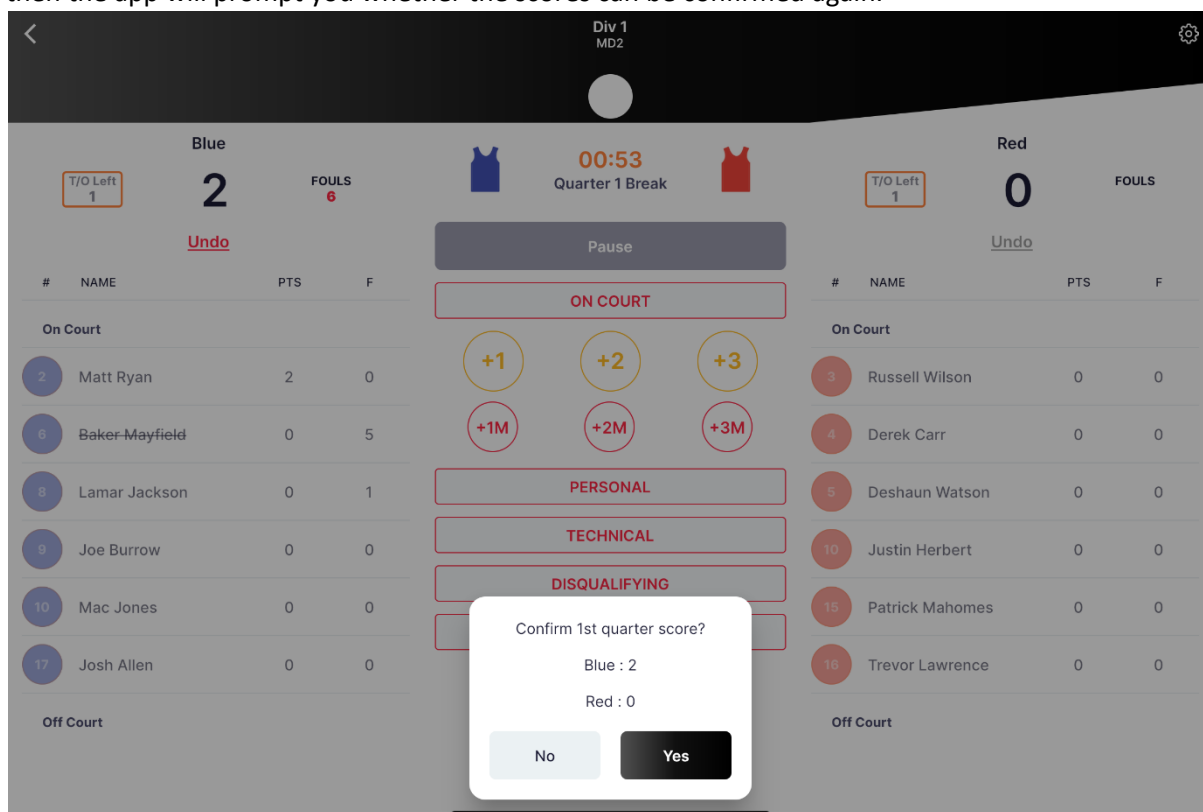

Editing the clock.

Click on the time at the top of the screen and edit the minutes and seconds.

Step 15

Confirm score at end of each quarter. Once the clock runs out in each quarter a pop-up will appear asking you to confirm scores. If scores need to be corrected, you may select NO, make changes and then the app will prompt you whether the scores can be confirmed again.

Step 16

Edit Game Settings.

To edit either the Team Selection, Action Log or Report an Incident click on the top right Settings cog.

Game Settings

- Team Selection >
- Action Log >
- Report Incident >

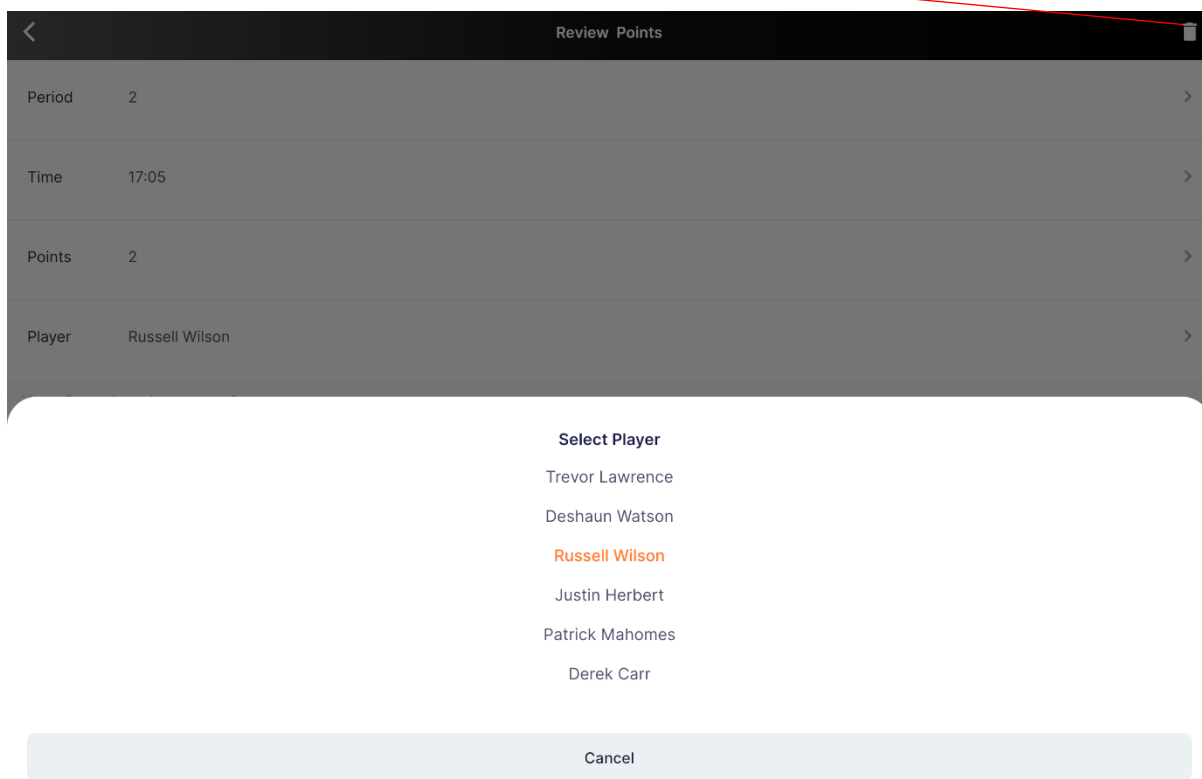

Step 17

View and edit Action Log.

Click on Action Log to view and edit any points, fouls etc throughout the game.

Click on the action and change to a different player or delete the action.

Step 18

Add an incident report.

Click on whichever option is relevant from Spectator, Discipline, Injury – Ambulance, Injury – First Aid or a Referee Report.

Enter details and select Next to confirm the incident to the relevant competition organiser.

The screenshot shows a mobile application interface for selecting an incident type. At the top, there is a black header bar with a white back arrow on the left and the text "Incident Type" in the center. Below the header, there is a list of five options, each with a radio button to its right:

- Spectator
- Discipline
- Injury - Ambulance
- Injury - First Aid
- Referee Report

Below the list is a large, empty light blue rectangular area. At the bottom of the screen, there is a grey button with the text "Next" centered on it. A black horizontal line is visible at the very bottom of the screen, likely representing the home indicator bar on an iPhone.

Step 19

Confirm final scores.

Once the game is complete you will need to confirm the final score when the pop-up appears. If scores need to be corrected, you may select NO, make changes and then the app will prompt you whether the scores can be confirmed again.

Once complete select YES to confirm the game. There is no need to enter a code. Either the scorebench or the referees may action this.
